cident occurred. "I have no objection to your making any use you may please of the

above information. "I remain, my dear Mr. Lansing,

very sincerely yours. "J. BERNSTORFF."

Washington, September 2.-Strained relations between the United States and Germany over submarine warfare apparently passed into history after Count Von Bernstorff, the German ambassador, informed Secretary Lansing in writing that prior to the sinking of the Arabic his government had decided that its submarines should sink no more liners without warning. Oral assurances to this effect had been given by the ambassador last week. But it was not until Count Von Bernstorff, after a call at the State Department, returned to the embassy and sent a letter to Mr. Lansing quoting instructions from Berlin concerning an answer to be made to the last American note on the sinking of the Lusitania, that officials frankly admitted their gratification over the

LONDON PAPERS TAKE NEW VIEW London, September 2.-The London morning newspapers, while recognizing that President Wilson has secured an important concession from Germany in regard to Germany's submarine warfare, express the belief that the President will not be content with it, but from the pont of view, that Count Von Bernstorffs note to Secretary of State Lansing indicates that Dr. Von Bethmann-Hollweg, the German imperial chancellor, has a freer

hand, they express satisfaction over the improved outlook of the situation. "It is difficult to imagine," says the Daily Telegraph in an editorial, "that President Wilson will accept Count Von Bernstorff's proposal, since such a settlement would leave merchant sailors under the American flag or other flags still exposed to the perils of submarine piracy. If there is any whittling away of the Broad principle for which the United States government has been contending the world will be confronted with murderous conditions at sea as a permanent

menace in time for war, for Germany has no monopoly of submarines." The Daily Telegraph contends that nothing but a complete abandonment of Germany's submarine policy will be sufficient. It argues that international law recognizes no differences be-

# Ina Claire and Theodora Roberts in "THE WILD GOOSE CHASE" at the Washington Theater Friday Evening

Admission Only 5c and 10c. Read the Following Synopsis of This Famous Comedy By William C. De Mille

Ina Claire, who is undoubtedly the foremost American star of her age, makes her photographic debut in this picturization of one of the most charming romantic comedies ever written by William C, De Mille. Miss Claire has recently entered into a contract with the Lasky Company by the terms of which she will appear each year in a certain number of photodramatic offerings, at the same time continuing her legitimate stellar career as a Broadway celebrity. "The Wild Goose Chase" is the love story of a college boy and a charming girl. At about the time they first meet and fall instantly in love with one another each is ordered by stern parents to marry an unknown mate. The reason for this

is that the grandfathers of these two young people are two rich old gentlemen of France, and these two old men, according to European custom, offer to provide large sums of money if the young people marry one another. To escape these enforced marriages, man and girl both leave home and join the same wandering theatrical troupe, which meets with many trials and tribulations. It is not until the very end that the young people, finally learning each other's

real names, find that they have been on a wild goose chase all the time, because the very thing they desire themselves is what the grandfathers have ordered.
